

WIND RESISTANT XL GUTTER

Largest Gutter with Industry Testing

Wind Resistant XL Gutter is the largest gutter available in the industry that is engineered and tested to meet the requirements of the ANSI/SPRI GT-1 test standard. The components included with this gutter ensure the system will stay secure to prevent wind uplift and make it faster and safer to install—no external brackets or wind straps needed. The Wind Resistant XL Gutter is designed to provide easy installation, outstanding performance, and maximum roof drainage.
